

# PROJECT FLY

## 2025-2026 School Year

### 3D Printed RC Plane

<b>Project Scope</b>	<p>Build a RC plane by designing and printing it.</p> <ul style="list-style-type: none"><li>• Modify existing/custom designs to a smaller scale (under 250 grams)</li><li>• Each member may earn an AMA recreational license to fly</li></ul>
<b>Groups, teams, roles</b>	<p>Based on attendance, each member will be assigned to a group</p> <ul style="list-style-type: none"><li>• Current groups - CAD, build, Sponsor relations, media, web (coding)</li></ul>
<p><b>This is currently an idea. To make this a reality, please come to one of our next meetings! Based on interest, we will follow through with this plan.</b></p>
